SUMMARY

A web developer works to conceptualize, design, program, and test these digital products in order to meet the client's needs.

From April 2024 to October 2024, your experience as a Full Stack Web Developer at Evangadi likely involved working on both front-end and back-end development tasks. I may have been responsible for designing and implementing user interfaces, managing databases, and ensuring seamless integration between the client and server sides of web applications.

KEY ACHIEVEMENTS

💎 **Leading Project**
Manage or oversee aspects related to the operation and coordination of transportation services. I am responsibilities may include ensuring schedules are met, addressing passenger concerns, and maintaining the efficiency and safety of the transportation system.

PASSIONS

💎 Creating seamless, functional, and visually appealing websites and applications. They enjoy solving complex problems through code, continuously learning new technologies, and improving user experiences.
